 Subject: Re: AME to hire Sabatino

I left few hours early and in a matter of hours my in box has 13 e mails about sabatino.

For those like me (and Steve) who HATE e mails, the large distribution list on this chain has generated 113 separate e mails on this topic.

I suggest that a meeting may be a more productive way of scoping out the issue and how to proceed.

That said, from just the narrow budget perspective PSII was involved in ALL budget policy decisions. Not only did he, as a deputy, get the budget policy sheets he actually read them and attended every budget meeting with the exec. (Including those on the weekends).

Specifically PSII for the 2005 to 2007 budgets knows and may have copies of spreadsheets identifying:

- 1) Where funds are hidden for salary adjustments for all bargaining units together with the % salary adjustment budgeted
- 2) all forecasts of deficits for the nursing home, decision trees laying out options, presentation material provided to university hospital when we solicited their interest in acquiring the nursing home on at least three different occasions.
- 3) Was involved decisions to push down costs to the lowest cost option: substitution of deputy sheriffs for police, substitution of civilians for sworn officers and substitution of contracted employees for AME including but not limited to probation and mental health.

All of the above are issues in the 2008 budget and would potentially be of interest to

Levy administration questions ex-deputy's union work

Rick Brand

September 28, 2008

The Levy administration has launched a broadside at former top deputy Paul Sabatino, claiming any work he does for the county union to stop the closing of the John J. Foley nursing home is a "blatant violation of our ethics laws."

County Executive Steve Levy's spokesman, Mark Smith, said the administration may go to the county ethics commission to enforce laws "intended to stop these revolving-door arrangements." If a violation is found, Smith said the matter could go to the district attorney.

Sabatino and union officials dismissed administration claims. "I see no problem," said Cheryl Felice, president of the 7,000-member Association of Municipal Employees.

"It's a typical overreaction intended to intimidate anyone who may be in a position to help the little people stand up to the county executive," Sabatino said.

Levy's salvo, only 24 hours after Sabatino's hiring, widens a canyon-sized rift between the men who were allied for two decades in a host of battles, including stopping the Shoreham nuclear plant, bringing in public power and reforming the Suffolk Water Authority. But since Sabatino resigned under pressure last year, they no longer talk.

Sabatino, who dubs himself "the equalizer" and whom foes call "Darth Vader," has an unmatched institutional knowledge of county government. As legislative counsel before joining Levy, he was a Machiavellian master at maneuvering the politics and personalities around the horseshoe and forged endlessly changing coalitions on a succession of issues.

Sabatino's re-entry also comes as lawmakers have grown testy over unilateral Levy moves - with no consultation - to disband the highway patrol and overhaul the Police Athletic League. And they now face a prickly proposed budget with no new cops and no nursing home.

"Levy has left people in the dark and expects them to fall on the sword," said Legis. Edward Romaine (R-Center Moriches). "That gives Paul a chance to form new coalitions."

But others say Sabatino just creates mayhem. "He's the king of dysfunction. That's why he stayed in power so long," said Richard Schaffer, Suffolk Democratic chairman. The party leader added Sabatino's

Levy administration questions ex-deputy's union work -- Newsday.com Page 2 of 2

new role "just kind of smells. Having the chief deputy county executive go to work almost immediately for the union almost seems that his opinion goes to the highest bidder."

Under the county ethics law, former employees cannot for two years appear before any county board or agency or "act as counsel, attorney or agent, nor receive any compensation nor aid in any manner in presenting a claim, request, or application."

Smith said that law bars Sabatino from giving the union "aid in any manner" in its bid to keep the nursing home open. Sabatino, Smith said, "was our liaison to AME and dealt with a myriad matters with regard to collective bargaining and was in numerous meetings going as far back as 2006 in which nursing home options were discussed and evaluated."

Sabatino and union officials emphasize he will not appear before lawmakers, lobby or represent them in court. "They are hiring me to be a strategic adviser with regard to the 2009 budget and legislation going forward, none of which is a case, proceeding or matter before the county when I left," Sabatino said.

He also said he made no promises to deliver results. "All I offer is a fighting chance," he said. "I can level the playing field."

Felice said Levy's harsh reaction gives her comfort. "I think they're afraid and have something to hide," she said. "And it's all the more reason I'm glad I picked up the phone and called Paul Sabatino."

THE PLAYERS

County Executive Steve Levy, his former top aide Paul Sabatino and AME

president Cheryl Felice

THE ISSUE

Is Sabatino breaking ethics law by

representing the union to stop nursing home closing?

WHAT NEXT?

Budget battle at legislature and a legal battle at ethics commission

Copyright © 2008, Newsday Inc.

ie.

PSII was a compulsive and prolific e mail sender. I'm sure there is a record of his involvement in all of these topics and more.

Paul was not shy about requesting opinions from Law and then giving his opinion (in very colorful terms) about the quality of opinions issued about sale of Suffolk Health Plan (he thought it was covered by A9-6), nursing home, etc. Etc.

Shortly after a nursing home presentation I recall being in Ben's Office with PSII when Paul was carrying on about having snagged a copy of the "secret" presentation. Paul's behavior was so over the top and bizarre that I suggested to Ben that I thought PSII needed to get mental health counseling.

My predecessor as director of BRO had a gig as a consultant to come after he retired. I don't know if he ever got an ethics sign off or not but PSII was appopletic over the arrangement at the time.

Does anyone know if he has gotten a ethics sign off?

That's it for my opposable thumbs tonight.

If you want to have a meeting on the fore going I would like it to be first thing tomorrow. I am off tomorrow thru Wednesday or thursday of next week - well that's the plan at least.

Thanks.

Has anybody seen the contract?

Dan, Perhaps Reid Epstein, if looking for comment from us, could obtain a copy of the contract since we would need to read it before commenting fairly.

To: Bortzfield, Robert
Cc: Law, Kevin; Sabatino II, Paul
Subject: JFA refunding

I got a phone call from Harry Tyson today – he lives! Harry has a new deal (more appropriately a retreat that never sent me) that he will e-mail to me.

More importantly he mentioned that if we have any JFA refunding proposals in house they probably WILL NOT work. Harry was the architect of the JFA deal and knows all of the nuances of the structure. Apparently a fixed rate refunding will trigger a restructuring of the JFA reserve account to the new interest rate. There is a way around it that Harry had proposed several years ago. The proposal includes issuing fixed rate debt to the call date of the bonds that then flipping them to variable rate debt. Harry will dust off his old proposal and forward it to us.

Subject: Alzheimer Garden

Paul - I apologize for the confusing information I have been providing...Hopefully the information below will help to sort things out for you. The garden is designed but not funded. We will continue to support the health department's request for funding and are prepared to move forward when the funds become available. - Leslie

- Resolution 2092-2002 appropriated \$4,029,200 for construction of an expanded occupational therapy and physical therapy area, adult day care area, miscellaneous safety improvements and an Alzheimer's Garden.
- As part of the design process, the Health Department requested a larger addition than originally planned.
- In 2004/2005 additional funding was appropriated to support this construction.
- In April 2004 this project was bid with several alternates proposed to stay within the appropriated budget. One of the alternates was for the Alzheimer's Garden.
- After reviewing the bid with the Health Department, it was necessary to remove the Alzheimer's Garden from the contract.
- The Health Department requested \$250,000 in 2007 during the 2006-2008 Capital Budget process to do the Alzheimer's Garden. The request was not included in the approved 2006-2008 Capital Budget.
- We plan to again ask for it in the 2007-2009 Budget.

Subject: Nursing Home

Paul,

You gave me some papers and told me to file them in the nursing home file.

But I am confused. What is being sold? The Foley Nursing Home alone or all the County Health Centers?

Are we planning to privatize County health care?

And what about the public health nurses? Do they want more money? Do we need to hire more? Do we want to eliminate them?????

Please give me some direction as to the County's policy toward both these matters.

Thanks.

Subject: AME Negotiations

Paul

Just a heads up. Met with AME today in negotiations. Cheryl told me that the rally that was planned in April has been moved to March 17 in front of the Dennison Bldg. The theme is show us the green for St Patty's day. She assures me that it will not be directed at Steve. It will be for a show of support from her members to reaching a negotiated contract quickly. Rich and I agreed to finalize the negotiations quickly, she just needs to get realistic and come off the current demands of 6% per year, cut the step system from 12 to 6 and guarantee 5% on a promotion. If she wants a contract quickly, she needs a reality check. I wanted to keep you informed of where they are going. I will talk to you in more detail when I see you.

Subject: Nursing Upgrade Recommendation

Ms. Harrington:

It has come to my attention that major recommendations were made to the County Executive's Office without my direct input and final approval. This morning I received a copy of the document entitled "Nursing Upgrade & Career Ladder Recommendation" that was shared with Mr. Sabatino earlier this week. Upon a brief review of the document this morning, I am dismayed that you would make a recommendation to the County Executive's Office for an "Assistant Commissioner of Health" without at least discussing it with me first. In the future all written recommendations to the County Executive's Office should come directly from my office.
